

DESERT SUN INVESTMENTS LLC

AI powered business operations, implemented and run with oversight.

Ana Vasquez, M.Ed. | Founder & Principal | AI-Powered Business Operations & Project Management Consultant

STRATEGY | OPERATIONS | MARKETING | PARTNERSHIPS | PROCUREMENT | EXECUTION

AnaConnectsYou is the consulting practice of Desert Sun Investments LLC, led personally by its founder. We help established businesses run better: operations put in order, AI implemented inside real workflows, projects carried to completion, and the paperwork of doing business kept ready. Every engagement is directed by Ana, and every deliverable is reviewed by her before it reaches the client.

WHAT WE EXECUTE

- AI implementation and automation. AI implemented inside the tools a business already uses: intake, follow up, inbox and document handling, and reporting, automated where automation holds up and supervised where it does not.
- Business operations and project management. Operations put in order and defined projects carried from written scope to documented completion, with coordination across vendors, teams, and deadlines.
- Websites, systems, and digital transformation. Websites and business systems planned, built or migrated, and kept running: domains, content, forms, and the records behind them.
- Research and decision intelligence. Full spectrum research checked against primary sources: markets, buyers, funders, partners, and opportunities, delivered as clear findings and a recommended course of action.
- Procurement and government contracting support. Vendor registrations, certification preparation, prequalification documentation, and procurement records kept ready, by an operator who maintains her own registrations in active status.
- Custom AI solutions. Purpose built AI workflows and knowledge systems designed around one business and its way of working, scoped in writing before anything is built.

The services above are in active delivery. Research projects and experiments are part of how the practice learns; they are not offered as services and are never represented as delivered capabilities.

WHO WE SERVE

Established businesses across industries that have outgrown doing everything by hand. Experience includes construction, professional services, and logistics.

WHAT CLIENTS RECEIVE

- A written scope, deliverables, and responsibilities agreed before work begins
- One accountable principal directing the work from start to finish
- Documented deliverables and decisions, with milestones and a clean record at close
- Access to Ana on the access terms agreed in the written engagement

HOW TO ENGAGE

Send an inquiry through the inquiry form at www.anaconnectsyou.com. The inquiry is reviewed for fit, and when the fit is mutual, a 30 minute Zoom meeting or a 30 minute phone call is arranged directly. Either party may provide the Zoom link.

Choose the term that fits the work: month to month, three months, or six months.

Strong professional relationships can continue. Engagements renew or extend by mutual agreement, for as long as the work serves your business. No annual contract is required, and there is no artificial end date on a good working relationship.

ENGAGEMENT AND FEES

Every engagement is scoped to the business and the work it needs. Fees are customized to that scope and are set out in a written proposal after the introductory conversation, before any work begins.

CREDENTIALS AND CONTRACTING

Contracting entity: Desert Sun Investments LLC d/b/a Ana Connects You
